Professional Experience

Software Subteam Leader - ITUNOM UAV Team

11/2018 - Present (Python, ROS, C++, OpenCV)

Took part in the software subteam, developed algorithms to both bring subsystems together and to accomplish computer vision mission requirements for *AUVSI SUAS 2019* and *Fighter UAV 2019*. As of June 2019, I am the subteam leader.

Intern Developer - Yapı Kredi Technology

8/2018 - 10/2018 (Java, Swift, MVC, Jira, BitBucket)

Mainly focused on Mobile Application development. Worked on projects on both iOS and Android platforms for YapıKredi Mobile Banking Application.

Intern Developer - Diebold Nixdorf

6/2018 - 8/2018 (Java)

Mainly focused on ATM software development. Developed a BIOS tool that would allow technicians to remotely control ATM's BIOS.

-
